**\*Mutlu cafe:**

Gaziantep Metropolitan Municipality opened the Happy Cafe, where young people with down syndrome are also employed, within the scope of Social Responsibility Projects. In addition to providing cafe services in Masal Park, Mutlu Cafe also serves as a rehabilitation unit operating to enable disabled individuals to participate in society with "Equal Rights". In terms of vocational rehabilitation, although we do our best to help them reach a level that can meet their vital and social needs on their own and to develop their sense of self-confidence, it is of vital importance to ensure that the disabled become productive individuals in terms of social rehabilitation, and as a result, to change the perspective of disabled people. The goal here is to bring these young people into society while increasing social sensitivity. The cafe, where a different atmosphere is experienced, offers special moments to its customers.

**\* Jale Tekinalp Yücel Culture and Art Center:**

As a social responsibility project, the art of mosaic is taught to new generations at the Jale Tekinalp Yücel Culture and Art Center, which is serving under Gaziantep Metropolitan Municipality.

Young people have the opportunity to get detailed information about "Mosaic Art" and to see the production techniques at the mosaic training center.

The guests who come to the center, which provides mosaic training in every field from the Ancient Period to the Contemporary Period, are also provided to experience the art of mosaics.
