I know you need a CEO, I'm young but that's just a technology company needs, freshness. I also have experience in this sector so I can help to develop this society and I can make it what it deserves. A CEO must be strong and sure about himself. Enterprises world is like animal world: Eat or you be eaten and the bigger fish almost ever eats the smaller fish. This work is like a chess game, you do your move and you study the moves of the other companies. I've been studying for years despite my age, I worked as a small employee but always with big aspirations, and now that's my chance for redemption and I won't waste it. I've the qualities for this job, I have a very good speech and persuasions skills.

I'm very excited to work in this enterprise, I studied a lot of strategies, and I have loads of ideas I can give you, this work is my passion, my life and I will be like an out of blue.
